Dear Honorable Judge John Dorsey,

I am writing to you as a creditor in the FTX bankruptcy case, residing outside of the United States. As one among many who have experienced substantial financial loss due to my deposits on FTX, I wish to express my concerns regarding the current management of the FTX estate.

I would like to express my objection to the intention of ftx to pay my cryptocurrency at the rate of November 11, 2022. I understand that it is easier for ftx to pay off its debts because at that moment many cryptocurrencies lost their value due to the collapse of ftx. But personally I didn't plan to sell them at that moment. I am a long term investor. Also I withdrew one coin a few days before the bankruptcy and it is still on my wallet, which shows my intentions to keep these coins. And the coins that are left in my account I would like to get not in dollar equivalent at the moment of crypto exchange collapse. The best solution is to get all the assets, but if that is not possible, then in dollar equivalent at the time of issuance, to be able to buy them back. Thanks for understanding

Sincerely,

Evgeny Kurilenko
